

Saint Bonnet de Mure, July 5th 2010

Dear Sir or Madame,

As of June 2007, the European Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force.

We confirm that our company is perfectly aware of its obligations to comply with the REACH regulation.

1 – Pre-registration and registration

Products supplied by FLEXELEC are articles, and no substance is intended to be released from our articles under normal or reasonably foreseeable conditions of use, so no registration by our company is necessary.

We asked our suppliers to confirm that each substance used by FLEXELEC from December 1st, 2008 has been pre-registered. Pre-registration and registration have to be done by our supplier, that's why we can't give pre-registration number for supplied articles.

2 – Substances of Very High Concern (SVHC)

The relevant information from our suppliers are regularly checked and verified by our company. According to the latest information which is provided, our products do not contain substances like specified in the actual SVHC list.

To date, we do not anticipate any significant change in our products due to the REACH regulation. If products are affected by REACH, we will inform our customers immediately.

If necessary, a list of articles containing more than 0,1% in weight of SVHC will be sent to our concerned customers.

3 – Contact

FLEXELEC contact person for REACH:

Sébastien GRILLERE
Quality Manager
sebastien.grillere@omerin.com

In any case, if we become aware of any difficulties from our supply chain we will inform our customer individually and find the best solution together.

Best Regards,

Pierre FERRAND
Technical Manager
