

PRODUCT QUESTIONNAIRE

Heating cord

In order to determine a special product made to the measurements you require, answers to the following questions are necessary, These will be used to define the best product you need.

Please fill in the following questionnaire and send it back to be able to study it flexelec@omerin.com

Company:

Name: **Given name:**

Tel:

*Fill in only **one** of this*

Resistance value in Ohm/m:

External diameter in mm:

Total heating length circuit in m:

Total power in watt:

Voltage in Volt:

Insulation material of the heating part

Silicone : most common insulation

PVC : insulation for low power

Fiberglass : only for specific application

External braid

Without braid

Tinned copper

Stainless steel

Fiberglass : only for specific application

Others information and sketch if needed:
